

VitalOxide[®]

DISINFECTS AS IT CLEAN

Kills 99.9% of germs

Kills 99.9% of bacteria and viruses

ACTIVES:

Non-ionic surfactants: less than 5%, ACTIVE DISINFECTANT INGREDIENTS: less than 5%.

Chlorine dioxide generated from sodium chlorite by oxidation: 0.2% (w/w)

Alkyl (C12-18) dimethylbenzyl ammonium chloride (CAS No 68391-01-5): 0.125% (w/w)

Alkyl (C12-C14) ethylbenzyl ammonium chloride (CAS No 85409-23-0): 0.125% (w/w)

KEEP OUT OF THE REACH OF CHILDREN

Directions for use: VITAL OXIDE contains a dilute oxidizing agent. Do not mix with vinegar, acidic detergents or other oxidizing agents.

To Disinfect Hard Non-porous Surfaces: For disinfecting pre-cleaned hard non-porous surfaces such as glass, plastic, painted wood, laminate, chrome, stainless steel, polyurethane coated hardwood floors, glazed ceramic tile, sealed concrete & linoleum floors. Types of items include: Exterior of appliances, bed frames, cabinet handles, wheelchairs, child car seats, counters, cribs, doorknobs, tables, tubs, exterior toilet surfaces, faucet handles, handrails, jungle gyms, keyboards, light switch covers, patio furniture, showers, sinks, stovetops, telephones, toys, walls, waste containers.

Apply product undiluted full strength to pre-cleaned hard non-porous surfaces, wetting thoroughly with spray, sponge, mop, or by immersion in solution. Allow surfaces to remain wet for 30 seconds or 1 minute for virus inactivation (refer to the viruses table for contact times) – 1 minute for bacteria disinfection. For immersion, replace solution daily, or more frequently if it becomes significantly soiled or diluted Fogging and Misting: product can be applied by fogging or misting to disinfect hard, nonporous surfaces. Apply by fogging or misting until surface is moist using equipment manufacturer's directions for use. Remove or carefully protect all food and food packaging materials prior to treatment. Vacate treatment area and do not reenter treated area until air is clear (minimum 20 minutes to reentry).

For mould or mildew prevention on floors, walls, ceilings and fabrics: Remove as much surface dirt, mould, or mildew as possible by cleaning. Spray VITAL OXIDE from a distance of approximately 30 cm until visibly wet. Let stand for 10 minutes then let air dry. Do not rinse

For cleaning of floors: Remove gross filth and heavy soil. Add 250 mL VITAL OXIDE per L of water in bucket and clean with sponge, mop or pad.

To deodorise: Simply spray, fog or wipe VITAL OXIDE and let air dry to provide long lasting residual deodorizing action. By fogging, apply 1,1 L per 57 m³. VITAL OXIDE must come into contact with the cause of the odour to be effective. For pet urine stains in carpet, blot urine as dry as possible then saturate stain with VITAL OXIDE through carpet pad.

Standards : EN 14476 +A2, in 1 min, EN 13624, EN 13727

Efficacy: human coronavirus 229E in 30 s, in clean conditions,

H1N1 + adenovirus + norovirus + rotavirus in 1 min, in clean conditions.

Candida Albicans ATCC 10231 Dirty Conditions in 1min

Pseudomonas aeruginosa ATCC 15442 Dirty Conditions in 1min

Staphylococcus aureus ATCC 6538 Dirty Conditions in 1min

Enterococcus hirae ATCC 10541 Dirty Conditions in 1min

Aspergillus brasiliensis ATCC 1604 Dirty Conditions in 10min

Warning

Use biocides safely. Always read label before use.

Precautions: Keep away from children.

FIRST AID: If in eyes: Hold eye open and rinse slowly with water 15-20 mins. Remove contact lenses after first 5 mins. and continue rinsing. Call a Poison Control Center or doctor for treatment advice. Have product container or label with you when calling a poison control center or doctor, or going for treatment.

STORAGE AND DISPOSAL: STORAGE AND DISPOSAL: Store in original closed container in a cool, dry, place away from heat and open flame. Do not allow product to become overheated in storage. Avoid prolonged storage temperature above 40oC, 90oF and away from direct sunlight. This may cause increased degradation of the product, which will decrease product effectiveness. Non-refillable -or- Refill only with this product. Do not reuse or refill this container unless the directions for use allow a different (concentrated) product to be diluted in the container. Do not transfer with metal drum pumps. Container Disposal: Rinse and offer empty container for recycling. If recycling is not available, discard container in trash. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Discard excess or used (product) solution in drain with running water.
